

# **HCAL construction data**

**Different groups already collected some data which can be important for future detector operation. Now all the data are kept inside relevant groups which use different database products or plain files.**

**Attempt to centralize data collection to simplify porting to a future database.  
Vladimir Ladygin <ladygin@sunhe.jinr.ru>**

- quality control data**
- operational parameters**
- calibration data**

**So far the only communication is with HE group.**
